

**GE Consumer & Industrial -
Electrical Distribution**

Current Ratings

15, 20, 30 Amperes
1 Pole and 2 Pole

Voltage Ratings

120 Vac and 120/240 Vac

Frequency Rating

60 Hertz

**Molded Case Circuit Breaker
"Q" LINE**

Types THQL-BA30, THQB-BA30
with Ground Fault Trip Unit
Enclosure Compensated
Long-time Delay, Instantaneous and
Ground Fault Time-current Curves

Curves show circuit breaker in open air, 40°C
ambient, wired with conductors of corresponding
rating, no prior load. For all other ambients use
rating shift index at top of sheet.
