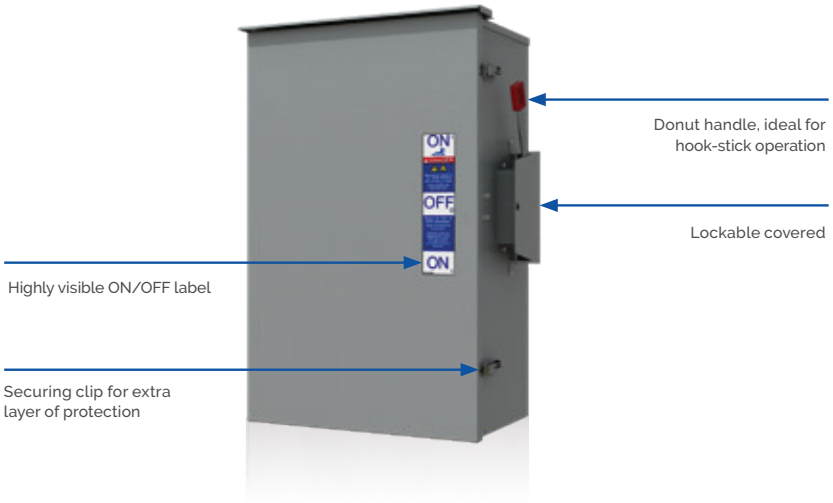
Expanding the Midwest Flock

Introducing the 400A Non-Fused Transfer Switch

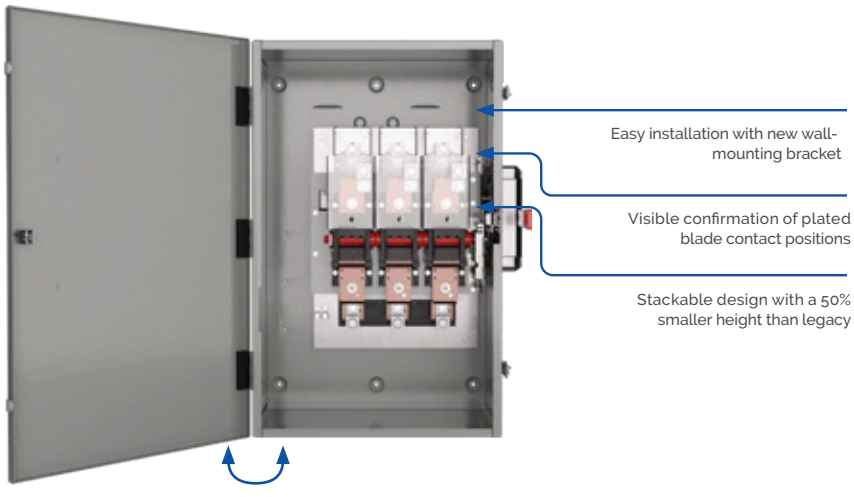


The new Midwest 400A Non-Fused Transfer Switch has premium features to improve safety and customer satisfaction, including a new wall-mounting bracket

The transfer switch is designed for applications with two power sources where safety, high performance, and continuity of service are essential.

Make the safer choice with Midwest

The new 400–600A safety switch includes a wall-mounting bracket to make installation easier and safer. In addition, the clear line shield and neutral kit will be a standard offering. We are also pleased to announce that the viewing window option will be extended to this product offering.



Door can be opened 180˚ for easy maintenance

Save time and labor cost

- New wall-mounting bracket to reduce installation time
- Red donut handle for easy grip
- Factory-installed ground kit
- Quick-make/quick-break mechanisms

Helps prevent errors

- Highly visible ON/OFF label
- Clear line shields
- Ample wire-bending space
- Lockable cover

Easy protection

- UL 98 listed
- NEMA enclosed safety switch standard KS1-2013
- Seismic certified
