### SHORT CIRCUIT CURRENT RATING

This circuit breaker main is U.L. listed for use on a circuit delivering not more than 42,000 RMS SYM amperes at 240 VAC max. when a General Electric type SGHA circuit breaker is installed. Replacement breaker shall be General Electric of the same type and interrupting capacity. The short circuit rating is limited to the lowest marked short circuit rating of the TMP or TMPR meter module or TMP main lug module used.
